

PurStock™ Series

Designed to save,
built to succeed.

Our new PurStock™ Series is specifically developed to reduce costs, increase throughput capability and ensure pain-free stock component production, with the added value of our 200+ years of industrial wood coatings experience.

PurStock Series
Quality assured

PurStock™ Series

Introducing our first ever fit-for-purpose system for stock component production

Designed specifically for OEM manufacturers with shorter lines, looking for a wood coatings partner for their stock component production, AkzoNobel's PurStock Series is designed to save you costs and help grow your business. A KCMA-approved coating system with quality and performance longevity, it's ideal for manufacturers looking to increase productivity and reduce operating costs.

The market is changing. Consumers are changing.

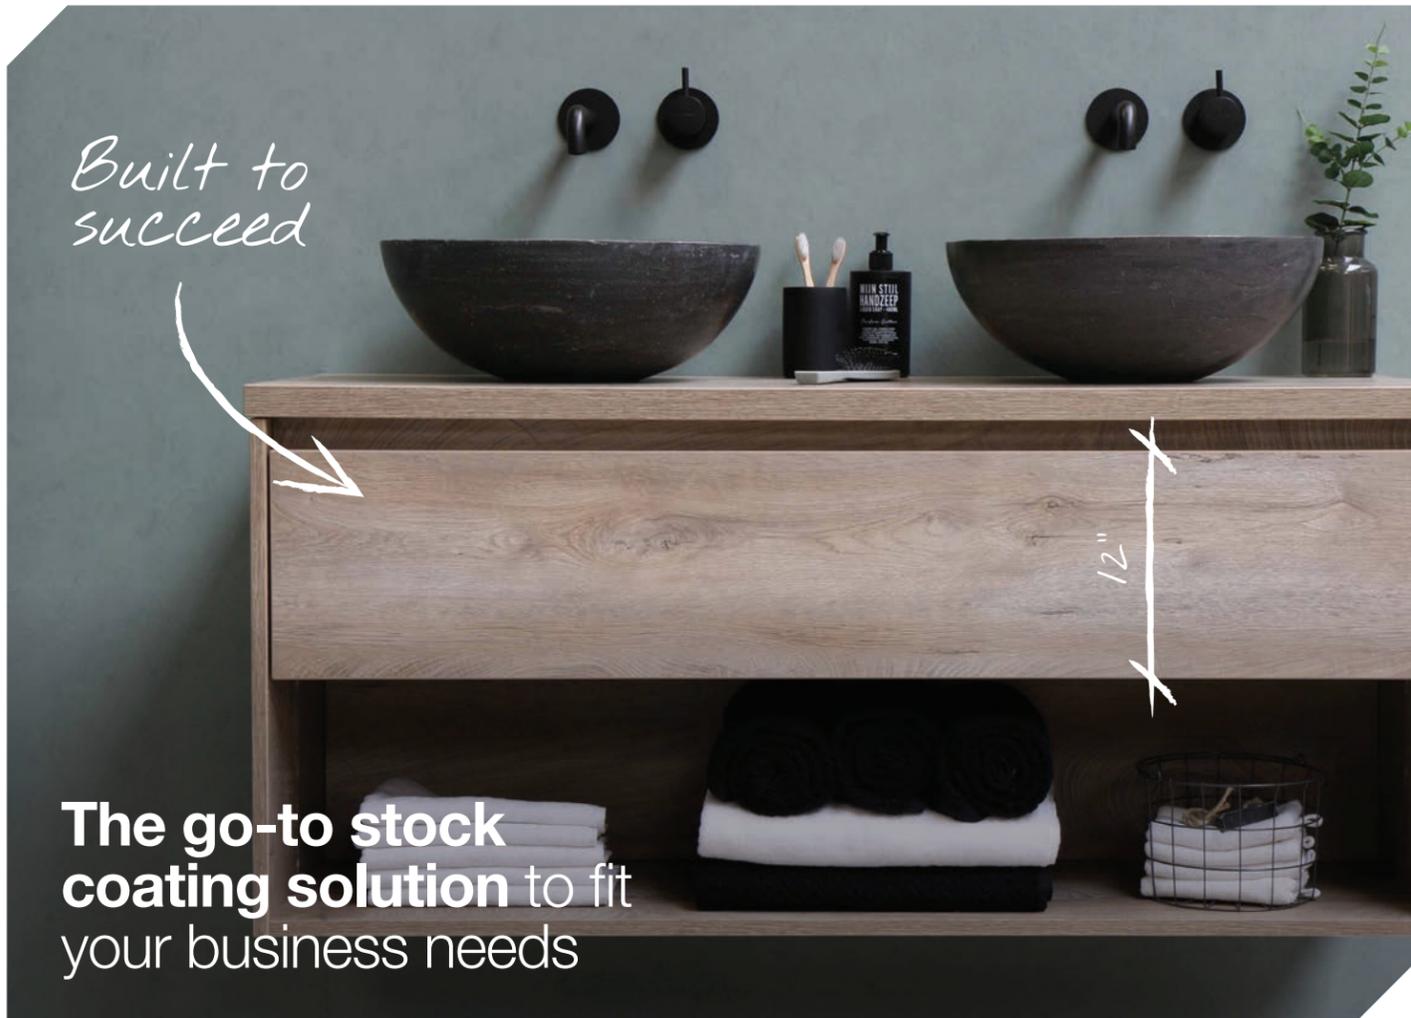

As a global supplier in industrial wood coatings solutions with over 200 years' experience, we've never rested on our laurels.

Many consumers are looking for flexible, interchangeable interior spaces that reflect their fast, modern lifestyles, which means affordable, 'off the shelf' furniture is an increasingly attractive choice. At the same time, high-build-quality and lifetime-durability remain crucial considerations.

This combination of trend-driven, high-paced interior refreshes and quality expectations offers a **unique opportunity** in the wood-based component production and wood coatings industry.

The PurStock Series draws on our long experience: leveraging our extensive market and customer knowledge and coatings capability to present a truly versatile system to enable you to meet the unique needs of your existing processes, while helping you succeed and grow your business. We're confident we have the right approach and solution to be the perfect partner for you.

Designed to save, built to succeed.

Features

Benefit to you

Fits with your existing process

- No new/special techniques are required

Saves costs

- Smooth transition: saves time and operational costs
